Subject: RE: Purdue v. STMicroelectronics, No. 6:21-cv-727-ADA (W.D. Tex.)--Discovery Dispute Chart for the Court's Resolution

Mr. Scott,

At the February 8, 2023 hearing, the Court ordered the parties to meet and confer on the issues below and provide an update.

Purdue December 23rd Letter: The parties have agreed as follows:

1. Interrogatory No. 2 – Resolved. ST will update sales information for SiC MOSFET products by March 10th.
2. Interrogatory 15 – Resolved. ST provided a supplemental response confirming there are no ST engineers on the organizational chart for the group that developed the accused products who attended Purdue on Feb. 15th.
3. Interrogatory 17 – Resolved. ST will provide a supplemental response for the lead applications engineers for top three customers of SiC MOSFETs on Feb. 22nd.
4. Requests for Production 15, 16, & 17 – Resolved.
5. Requests for Production 8, 9, 11, 21, & 23 – Resolved.
6. Requests for Production 30, 32, 34, 35, 36, 40, 41, and 56-61 – The parties are still discussing these requests. The parties do not need the Court's assistance at this time.
7. Interrogatory No. 13 – Unresolved. This issue will be addressed by a forthcoming dispute chart compelling a Rule 30(b)(6) deposition on topics related to ST's ERP system.

ST December 30 Email Issue 2: The parties resolved this dispute. Plaintiff agreed to perform a reasonable search for and produce by March 10, 2023, to the extent found, any papers, presentations, or the like from Michael Capano, James Cooper, Chao-Yang Lu, Mark Lundstrom, Michael Melloch, Dallas Morisette, and Asmita Saha (1) from before the filing date of the application that issued as the '633 patent that (2) relate to (a) SiC power MOSFETs and/or (b) JFET width or base contact configuration in power MOSFETs, regardless of semiconductor material. Production of any such documents does not constitute an admission that the document qualifies as prior art and does not relieve ST of its burden to prove same if disputed.

ST January 25 Email Issue 1: The parties resolved this dispute. Plaintiff agreed to provide an updated invention disclosure this week.

ST January 25 Email Issue 2: The parties resolved this dispute as follows – Plaintiff represented that its reasonably diligent search for the signed and dated copy of the Saha thesis proposal included asking Dr. Saha for the copy she stated she had at her deposition, and she confirmed she did not, in fact, have any copies of her thesis proposal.

CAUTION - EXTERNAL:

Mr. Scott:

I write to follow up on last week's hearing. First, attached please find a proposed order memorializing the Court's rulings at the hearing. Second, the parties are working on an update to the Court in accordance with its guidance at the hearing. That has taken longer than anticipated and the parties respectfully request one additional day to submit that update. We are available at the Court's convenience to address any questions or concerns.

Thank you.

Respectfully,

CAUTION - EXTERNAL:

Dear Mark - I am representing the third-parties (Tesla, SpaceX, and Sanmina) and will be handling the argument for ST Customers' Motion to Quash (Dkt. 213). Unfortunately, I am out of town and will be returning on Tuesday, so I cannot attend the hearing on Monday. Can we schedule the argument for just that motion to another day that is convenient for the Court? If the Court wants to hear that motion next week, we request to schedule it for Wednesday or later. The remainder of the issues and dispute charts can be heard at Monday's hearing.

Thank you very much for your assistance.

Best Regards,

~Justin
